DIAMOND ANALYSIS REPORT™

EGL USA

NATURAL DIAMOND

REPORT # US 900173210D GP

SHAPE & STYLE ROUND BRILLIANT

MEASUREMENTS 5.68 - 5.64 x 3.48 mm

DEPTH 61.5%

CARAT WEIGHT 0.70 CT

CUT GRADE EGL IDEAL PLUS

CLARITY GRADE SI2

COLOR GRADE G

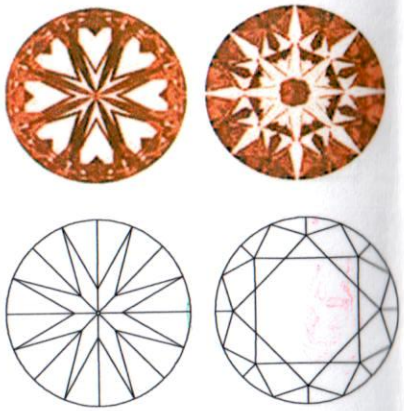
FLUORESCENCE NONE

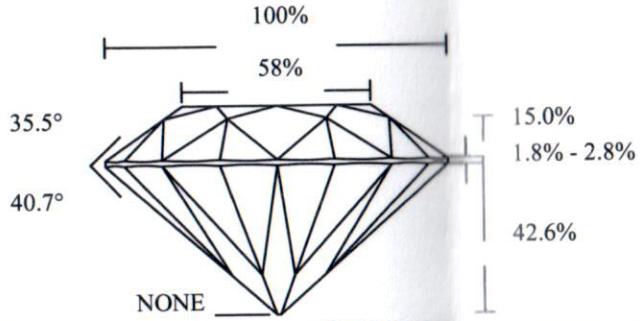
COMMENTS Girdle inscribed "EGL US900173210D"

APRIL 29, 2010

This document was produced with the following security measures:
Ink screens, holographic security seal, tamperproof background designs,
EGL embossing and other safety features, custom designed for EGL USA.

Hearts **Arrows**





POLISH
VERY GOOD

SYMMETRY
VERY GOOD

The characteristics of the diamond in this report were based on the information gained from utilizing avariety of gem testing instruments.
The following instruments were used as required to complete our examination: 10x magnification with a fully corrected loupe and binocular microscope, millimeter gauge, computer aided non-contact measuring device, spectroscope systems, Proportion Scope, electronic balance, master color comparison diamonds, ultraviolet light sources, fiber optic illumination, and other instruments. The diagram is an approximate representaion of the type and relative position of internal and external characteristics. Red symbols indicate internal characteristics and green symbols indicate external characteristics.
